

# 4.2 Searching the Web

Delete the current URL (whatever it is)

Key in <http://www.google.com>  
(google is primarily a search engine with additional features being added)

Key in *WinstonNet* in the search area and press the *Enter* key

Observe the results

Try other searches (using your last name, a hobby or other topic of interest)

Delete the current URL (whatever it is)

Key in <http://www.yahoo.com> and press the *Enter* key  
(Yahoo is an Internet utility with all types of services)

Click on the word Shopping and search for digital cameras

Delete the current URL (whatever it is)

Key in <http://www.ebay.com> and press the *Enter* key  
(eBay is a large Internet auction site)

Browse for an item and select the category antiques

Check out the antiques for sale

Close the eBay window and return to Internet Explorer

Close the Internet Explorer window

Close Outlook, Log Off WinstonNet, and Shutdown the system
